

# S-Deluxe for STRATOCASTER (Side 1)

optional HB T/T in an HSS or HSH configuration also shown

## (TONE CONTROL ON BRIDGE PICKUP)

All pickups:  
Black wires to switch - Bare & Green wires to back of volume pot.

\* This capacitor (optional) helps compensate for the natural loss of high frequencies (through the guitar cord) that occur when the volume control is partially rolled back.

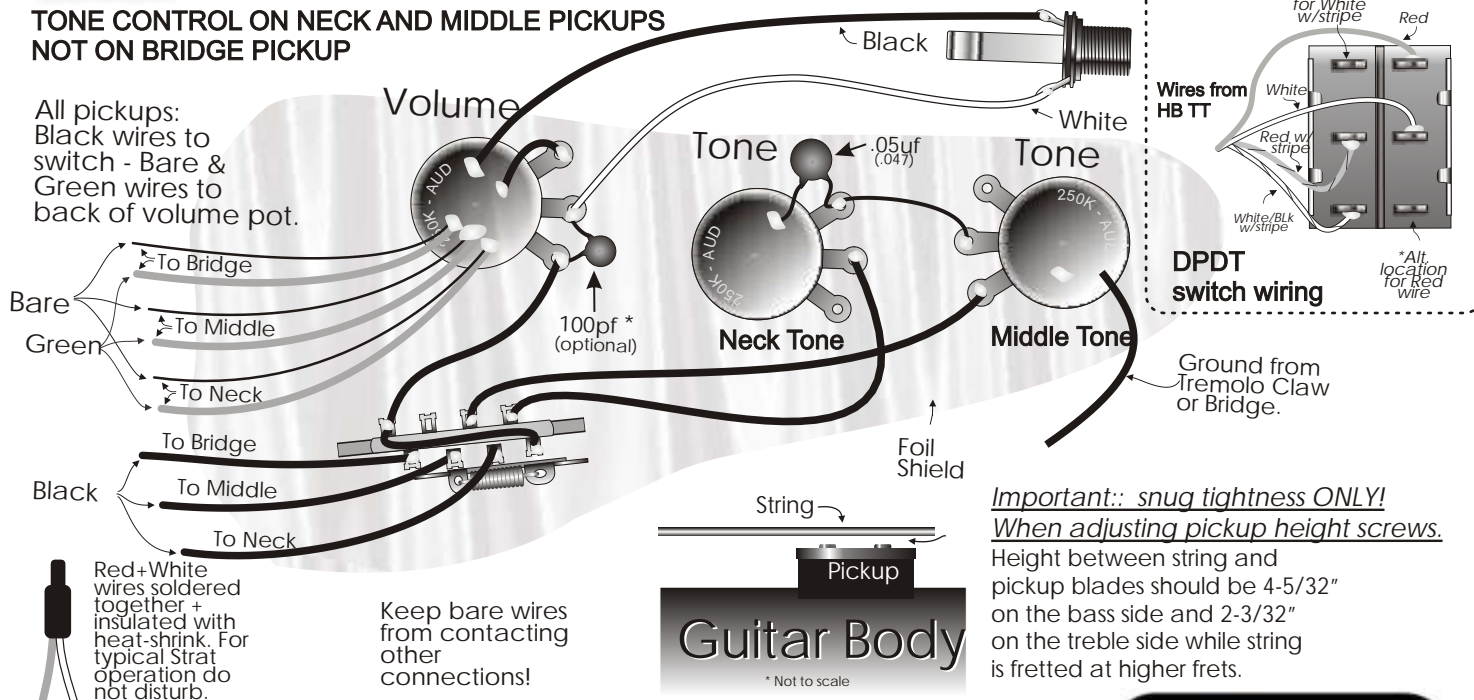

# S-Deluxe for STRATOCASTER (side2)

optional HB T/T in an HSS or HSH configuration also shown

## TONE CONTROL ON NECK AND MIDDLE PICKUPS NOT ON BRIDGE PICKUP

All pickups:  
Black wires to switch - Bare & Green wires to back of volume pot.

\* This capacitor (optional) helps compensate for the natural loss of high frequencies (through the guitar cord) that occur when the volume control is partially rolled back.
